

About

RWI – Leibniz Institute for Economic Research is a leading centre for economic research and evidence-based policy advice in Germany. Through its research work RWI provides information on economic developments and their underlying catalysts, assists economic policy decision-making and fosters economic literacy among the wider public.

The research work of RWI – based on latest theoretical concepts and advanced empirical methods – ranges from the individual to the world economy and is structured along five “competence areas”: “Labor Markets, Education, Population”, “Health Economics”, “Climate Change and Development”, “Environment and Resources”, and “Macroeconomics and Public Finance”.

The Institute’s claim “research with impact” illustrates its high scientific demand and is to be understood in a threefold sense: virtually all projects at RWI are of practical relevance and, thus, possess a high degree of potential policy impact. Second, the applied research at RWI fulfills highest academic standards and results are regularly published in renowned academic journals (i.e. with a high “impact factor”). Third, “impact evaluation” is a trans-divisional core competency of RWI and, therefore, often the central challenge in a large number of studies, evaluations and policy projects.

The Institute was founded in 1926. Since 1943 it is an independent research institute. RWI is a registered, non-profit institution and is committed to serving the common good.

| research with impact

The graphic features a blue background with a complex, abstract pattern of overlapping, semi-transparent geometric shapes (triangles and polygons) in various shades of blue. The text “| research with impact” is overlaid in white, with a vertical line preceding the text.

RGS Econ

In 2004, RWI founded the **Ruhr Graduate School in Economics** (RGS Econ, www.rgs-econ.org) in cooperation with the Ruhr University Bochum, the University of Dortmund and the University of Duisburg-Essen. Each year, RGS Econ enables eight graduates to undertake a three year program leading to a PhD degree in Economics.

Leibniz
Leibniz
Gemeinschaft

The logo for Leibniz consists of the word “Leibniz” written in a large, elegant, cursive script. Below it, the words “Leibniz” and “Gemeinschaft” are stacked in a smaller, clean, sans-serif font.

Organization

Board of Directors

Prof. Dr. Dr. h. c. Christoph M. Schmidt
(President)

Prof. Dr. Thomas K. Bauer
(Vice President)

Dr. Stefan Rumpf
(Administrative Board Member)

Currently, RWI employs around 130 people, including 80 researchers. The Institute is funded by public money, membership fees and commissioned work. The average annual budget is approximately 13 million euros. RWI is supported by the Federal Government and by the Bundesland North Rhine-Westphalia.
